- > Various hydraulic or electric motor sizes and models can be attached
- > FlexTrac Axle® with adjustable track width to fit different tyre sizes

LAP 55

FlexTrac Axle®

LAP 44

An aerial photograph of a large-scale construction or industrial site. The ground is a mix of dark brown earth and light-colored sand or gravel. A yellow dump truck is positioned in the lower center, carrying a load of dark material. The scene is characterized by deep shadows and bright highlights, suggesting a sunny day. The overall impression is one of heavy-duty work and large-scale infrastructure development.

Hydraulic motor size [max. ccm]	Up to 135	Up to 170	Up to 250	Up to 165
Output flange	DIN/MECHANICS/SPICER in different sizes			
Driven by	Directly attached hydraulic or electric motor / flange			

VG 250/VG 35/VG 75

Product features:

- > Wide range of standard gearboxes, shiftable in standstill
- > Various single and two speed ratios available
- > Optional parking brake and rear axle disconnect
- > Low space requirements
- > High overall efficiency

HydroSync®

Product features:

- > HydroSync® is an upgrade of the VG 35 standard gearbox
- > Load-free shifting procedure thanks to electro-hydraulically synchronised gears
- > Shifting procedure can be triggered on demand or automatically
- > Drivetrain is brought to no load by adjusting the pump and motor
- > Transmission is disengaged into the neutral position
- > Hydraulic transmission is then adjusted to the new ratio of the selected gear
- > The required gear is selected and the normal drive programme continues
- > Highly cost-efficient HydroSync® solution

Ratio i2	1.33 - 2.36	1.81 - 2.09	4.00 - 5.92
Parking brake		Optional	
Declutch system		Optional	
Input torque [Nm]	Max. 2000	Max. 2200	Max. 1430
Input RPM	Max. 4500	Max. 4500	Max. 4750
Output torque [Nm]	Max. 6000	Max. 10500	Max. 8900
Hydraulic motor 1 [max. ccm]	Up to 160	Up to 210	Up to 210
Hydraulic motor 2 [max. ccm]	Up to 160	Up to 210	Up to 210
Output flange	DIN/MECHANICS/SPICER in different sizes		

VGZ 75/VGZ 86

Product features:

- > Wide range of standard gearboxes shiftable in standstill
- > Various motor positions possible: side by side, face to face, back to back
- > Various single and two speed ratios available
- > Optional parking brake and rear axle disconnect
- > Well proven and reliable mechanical design

DualSync®

Product features:

- > Different ratios are available for each motor
- > Dual motor gearbox with hydrostatic CVT functionality
- > First motor switches off when reaching its maximum speed
- > Reduced losses and maximised tractive effort
- > 2 operating modes
 - Simultaneous use of both motors for high tractive effort
 - High driving speeds with one motor drive

Advantages of our dual-motor gearboxes:

- > Fuel savings of up to 20 %
- > Jerk-free and precise travel control over the entire speed range
- > Diesel engine operates at most efficient rpm range

With modular thinking, modular processes and modular product configurations, we already provide answers today for the functional, economic and logistic challenges of tomorrow.

6 SUCCESS FACTORS FOR YOUR AUTOMOTIVE CONCEPT OF THE FUTURE:

- 1 MODULAR AXLE DESIGN**
Proven modular system for complete drive trains – comprising tried-and-tested components.
- 2 MODULAR CUSTOMISATION**
Highly specific, quick and economical customer solutions – with modular development and implementation.
- 3 MODULAR INNOVATION**
All new developments in our customer’s needs is directly integrated into the modular system.
- 4 MODULAR PRODUCTION**
Fluid, customised fabrication based on the modular building block and modular procurement concept.
- 5 MODULAR REPAIR & MAINTENANCE**
Easy repair and spare parts system – by replacing modules, lifetime costs and downtimes are minimised.
- 6 MODULAR SPIRIT**
Corporate culture continually strives to introduce customer-specific competitive advantages.

FOR YOUR HEAVY DUTY PLAYGROUNDS

As the leading market manufacturer of drive trains for self-propelled forestry machines, NAF has been tackling a wide variety of the most extreme deployment conditions for many decades. The modular system, which has evolved from this set of requirements, covers the individual assignments that need to be met by heavy-duty vehicle manufacturers across many different sectors. With this passion, which made us the market leader for drives in forestry machines, we create your individual drive solutions.

FOR YOUR HEAVY DUTY PLAYGROUNDS

NAF's drive solutions are modelled for their special use and application. Our modular designs and the experience from more than 621 projects are the basis to satisfy your requirements in the most efficient way. We are pleased to present our comprehensive product portfolio!

BOGIE AXLES

NAF AG is particularly proud of the awards given to us by our customers that honour our outstanding achievements and cooperative partnerships on all levels. This is our benchmark for all customer relations.

NAF is the expert for power transmission, traction and load capacity on mobile working machines. Our gears and axles create a substantial competitive advantage in the heavy-duty off-highway industry. As a system partner we have been mastering the tasks of our market-leading customers since 1960 and invest 5% of our annual turnover into research and development.

As our customer you benefit directly from our passion for innovation that guarantees your success.
